"To the south of the Somme the bombardment, which has been going on for two days in the region of Ablaincourt and Pressiore, took on last night great intensity and was followed this morning by a German counteroffensive, in which large forces took part, directed upon the posttions taken by us on the 7th of November, From the Ablaincourt Sugar Works as far as the Wood of Chaulnes the attacks were delivered with ferocity, beginning at 6 o'clock in the morning. In spite of the extent of this attack and the use of large quantities of flaming liquids, together with tear-producing shells, the enemy was subjected to a sanguinary

check. "To the south of the sugar works, opposite Ablaincour: and Pressiore, as well as in the wood to the south of Pressiore, French artillery and French machine guns broke the waves of the enemy's assaults. The Germans suffered heavy losses. Only some detachments of the enemy were able to reach a group of houses to the east of Pressiore. A tentative attack by the enemy delivered on Pressiore at 3 o'clock yesterday afternoon was driven back with band grenades. This entire region is still under bombardment but the shell fire has been efficiently countered by the French.
